

Highway Improvement Plans

Supporting Parish Councils

Summer 2023

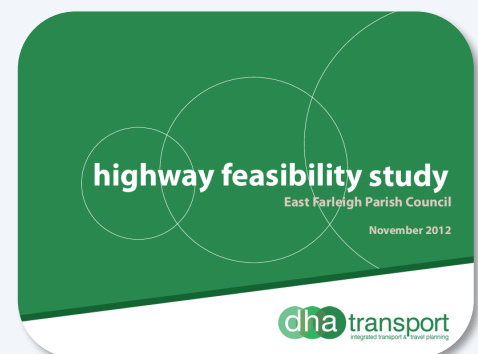

Traffic congestion, road safety and parking are some of the most important issues for local people. Kent County Council (KCC) looks after our roads (except motorways and trunk roads) and their approach to addressing local highway concerns is to ask Parish Councils to identify and prioritise the highway improvements they would like to see, and to submit them to KCC in the form of a **Highway Improvement Plan**.

DHA has the expertise to support you in preparing your Highway Improvement Plan

We have an extensive local knowledge of Kent; most of our staff live, work and play in the County. Our staff have built up good working relationships with officers both in Kent Highways, and the local district and borough councils.

We can offer you the following services:

- Evidence gathering and analysis - traffic counts, pedestrian counts, speed surveys, parking surveys, pedestrian and cycling audits, personal injury accident (PIA) data.
- Insight and understanding of neighbourhood planning, planning policy, Kent Design Guide, and heritage and conservation.
- Engineering advice - preliminary highway layout and design, road safety, lorry management, parking layouts, and public rights of way.
- Develop active travel solutions including measures for walkers, cyclists and horse riders, bus and rail infrastructure improvements, quiet lanes, public realm enhancements.
- Professional desktop publishing of technical reports, brochures and templates, with GIS mapping and engineering drawings.

If you require more information or would like an informal chat, please ring **Rob Smith** on **01622 776226** or email him on: rob.smith@dhatransport.co.uk
